Cambridge IGCSE® First Language English (0500)

Future availability of the Coursework Training Handbook and the Speaking and Listening Training Handbook

Cambridge International Examinations has produced copies of the Coursework Training Handbook and Speaking and Listening Training Handbook for Cambridge IGCSE First Language English (0500) to be available to schools online for a period during 2013. This was to ensure that the quality and consistency of marking was maintained across the June 2013 cohort, since we had received a large number of entries from schools new to Cambridge.

We will be removing both the Coursework Training Handbook and the Speaking and Listening Training Handbook for Cambridge IGCSE First Language English (0500) from Teacher Support in four weeks' time (18 October 2013). From this date the handbooks will be available in the usual way, as a printed copy, purchased through the Publications Catalogue at www.cie.org.uk/orderpub. A school need only purchase one copy of the handbook to train any number of teachers and submit multiple applications for accreditation, as required.
